

May 1, 2022

Dear Sir or Madam,

My name is John Giordano. I'm an addictionologist and a Chaplain for the North Miami Police Department. I'm writing this letter in reference to Mr. Patrick Baker. Mr. Baker has been a strong advocate for plant medicine called Ibogaine. This plant medicine helps people, like Patrick, break free from the addiction opioid cycle. Patrick has successfully helped many people getting off opioids. Patrick and his cadre of activists and supporters have brought light to this incredible medicine. Patrick has incorporated a grass roots political campaign to advanced ibogaine in the fight against opioid pandemic. Mr. Baker and his followers have made a tremendous impact on bringing to light this needed approach. Mr. Baker has done this through television, political activism, and social media. He has gathered together thousands of people through his efforts that have been recognized by myself and others. May God continue to bless his passionate efforts. If you would like more information about me, you can go to johnjgiordano.com or Mr. Baker's website addictionassassins.com.

Sincerely,

Chaplain John Giordano
